2. All bulls guaranteed breeders. A bull shall not be allowed to serve when under fourteen months of age or be allowed to run with herd when under twenty months of age.
3. Cows sold with calves by side are considered proven breeders. All other cows and heifers sold as a single lot are guaranteed breeders, except calves sold by side of dam as one lot, and heifers under sixteen months of age at time of sale. Heifers shall not be served for first calf by heavy or old bull. Cows and heifers over three months gone in calf, according to service date furnished at time of sale, but not proving in calf, must be reported to seller within three months from date of sale; all others served within three months of date of sale not proving in calf or not settled, must be reported within six months. 4. Any animal not proving up to foregoing guarantee shall be replaced with another of equal value at the time of purchase to the satisfaction of the purchaser, but the seller may, if he desires, have the animal returned for retrial for a period not to exceed six months. The expense of return freight in such case is to be paid by the seller. If the animal is proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case the animal proves to be not a breeder, then the purchaser shall be given the option of having purchase price refunded without interest or of accepting a substitute as stipulated above. Salvage to go to the seller. No charge for feed or maintenance shall be made by either buyer or seller. The Maxwalton Herd is Federally Accredited.

## Maxwalton's Blood and This Offering

---

It is impossible to recall the contributions that Maxwalton productions have contributed to breed improvement in a period of close to thirty years without repeating a story that has been told time and again. Notwithstanding this, it may still be stated, with the assurance that the statement is sound, that the strains of breeding that contributed so much to breed improvement in the early history of Maxwalton, the Sultan strain, is still functioning pretty much in its old time potency through the descendants of Whitehall Sultan Avondale and Revolution, Browndale Golden Victor, Maxwalton Browndale and Browndale Vanguard, all direct line descendants of Whitehall Sultan and Avondale through Avondale's greatest breeding son Browndale.

No student of Shorthorn breeding will question the statement that Sultan breeding is still the most potent force for improvement in that breed. This is true of many of the great herds in existence at the present time and it is within reason to predict that it will continue to manifest its potency for time to come.

Browndale breeding is still a potent factor for improvement in the Maxwalton herd. It contributed to a number of outstanding young things in the show herd sent out from that establishment this season. One of these, a bull calf Maxwalton Pure Gold, a son of Browndale Vanguard, is one of the outstanding productions of the year. He was the junior champion at Ohio and headed his class at Illinois and Indiana, and looks the part of a bull that will go far.

These facts are recalled to remind you that much breeding material, bred similar to this outstanding champion, is available in bulls and females in this auction. This fact alone carries a strong appeal to those who recognize that now is the time to put one's herd in order for a new and prosperous era which all recognize now dawns for all herd owners who are producing good stock.

GEORGE E. MARTIN,

Of The Shorthorn World.
